

SRTS Teacher Tally

School district/building: _____

Teacher: _____ Grade: ____ Class size ____

No. students living in: school building city __ other city __ country __

The purpose of this tally is to record how students get to and from school each day. Use this form to record the results during school and then at the end of the week visit www.iowawalktoschool.org to submit your data.

Start by filling out the info above. Ask the class by raise of hand if they live within the city or in the country. Next ask the class to think about how they came to school. Did they walk to school, ride the bus or maybe walk to a local bus stop. Read through all the potential answers so the students know the choices. Then ask the class by raise of hand to answer “**How did you arrive at school or your community school bus stop today?**” Record results in the appropriate box along with the general weather (Sun, Rain, Overcast, Windy, SNow or COlder than normal). Repeat for walking home and the remaining two days of the week.

The purpose of the Bus Plus category is to count the number of kids that walked, biked or were driven to a bus stop and then rode the bus to school. Students that raise their hand for bus plus should also be counted in the appropriate box (walk, bike etc). Those that only rode a bus should only be counted in that category.

 Start Date	Tuesday		Wednesday		Thursday	
	To	From	To	From	To	From
 School Bus Plus						
 Walk						
 Bike						
 Skate/Scoot						
 School Bus Only						
 Family Vehicle						
 Carpool
